

**What we do:**

For the last five years, Kiron has been offering free online learning opportunities to refugees and underserved communities. We believe that education can change lives, transform communities, and build bridges. That's why we created the online learning platform Kiron Campus, so we can ensure that our students receive free access to high-quality education for academic, professional and personal growth.

“I genuinely love learning, and I believe that education forms the basis for everything. Whatever you want to achieve or become good at, you have to start with education.”

- Asmaa, Kiron student

**What's next?**

Our vision for 2021 is to empower more learners by making the Kiron Campus even more inclusive and fostering a supportive and growing student community. We also want to increase our international presence and open our platform to other refugee focused organisations to generate even more impact via our Collective Impact Campus.

Annual Report – summary

Learning  
beyond  
limits

# Together we shape the future of online education to empower underserved communities worldwide.

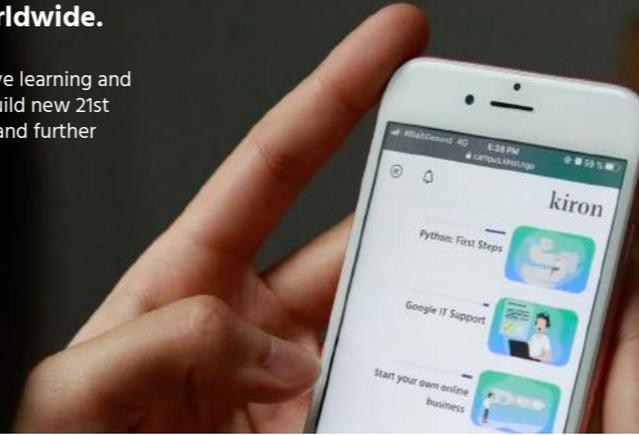

## Our mission:

We provide digital learning opportunities for academic, professional and personal growth.

## Through Kiron Campus we empower learners worldwide.

Kiron Campus focuses on inclusive learning and accessibility. Our students can build new 21st century skills for the job market and further education.

### What makes us unique:

- low-bandwidth features
- Android app
- supports old devices and browsers
- facilitates blended learning programs
- free certificates
- optimised for mobile-view
- multi-lingual
- fast and easy access to lessons
- lively student community
- open for partner programs

### Completion rates:

Completion rates of Kiron's courses are well above the worldwide average.

## Student community

Our community is at the heart of what we do at Kiron. Currently, w

+10,000 active students, from more than 90 countries

“My plan for the future is to complete all of my courses, get more experience and more certification, and to help others the way Kiron helped me.”

## We can turn ideas into action:

Along with our partners, we ensure that vulnerable populations receive access to high-quality education, tailored to their needs.
